### Meridian Experience

#### Meridian Institute

1999–Present

Meridian Institute designs and facilitates collaborative processes that help diverse parties identify critical issues, build relationships and trust, construct innovative solutions, and implement durable decisions. These collaborative processes address challenges at the local, state, national, and international levels, and involve leaders from government agencies, industry, nongovernmental organizations, and international institutions. Meridian also assists organizations in conducting strategy development and planning.

#### Senior Mediator and Program Manager

Manages and facilitates policy dialogues, negotiations, and strategy development projects involving teams of facilitators. Conducts convening assessments, designs processes, plans and facilitates meetings, helps participants develop consensus documents, and conducts implementation activities. Selected highlights are summarized below:

- Serves as project manager for the [Advisory Committee on Climate Change and Natural Resource Science](#) (ACCCNRS), a multi-stakeholder federal advisory committee to the Secretary of the U.S. Department of the Interior.
- Serves as the lead facilitator for the Food & Nutrition Initiative of [AGree](#). AGree is dedicated to transformative change in food and agriculture through dialogue, analysis, and action by diverse coalitions. AGree's Food & Nutrition Initiative is focused on using food and nutrition to improve health, reduce food insecurity, and decrease diet-related disease.

- Member of the Meridian project team that supports the [Partnership for Aflatoxin Control in Africa](#) (PACA), an African-led partnership that seeks to promote agricultural development, safeguard consumer health, and facilitate trade by catalyzing, coordinating, and increasing effective aflatoxin control on the continent.
- Serves as project director for the Collaborative Adaptive Management Network (CAMNet), a network of scientists, resource managers, decision makers, citizens, and researchers that is dedicated to fostering the resolution of complex natural resource management problems through collaborative adaptive management processes.
